

CROSBY-LAUGHLIN Fittings FOR WIRE ROPE AND CHAIN

Genuine
CROSBY CLIPS®

On all wire rope fastenings use CROSBY CLIPS . . . identified by the Red-U-Bolt. Grooved saddle and high wings of forged base hold rope securely. Hot dip galvanized. The only clip in all sizes, $\frac{1}{8}$ inch thru 3 inch.

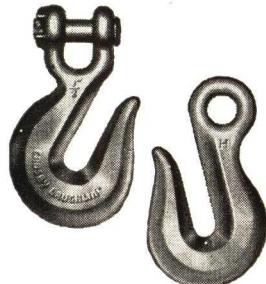

CROSBY-LAUGHLIN Load-Rated!® SHACKLES

Minimum breaking strength is six times safe working load of shackles with $\frac{1}{2}$ to 35 ton rating, five times safe working load of shackles with 50 and 75 ton rating! Anchor type and chain type—choice of round pin with cotter, screw pin with eye, or safety bolt with nut and cotter. Capacities from $\frac{1}{2}$ to 75 tons.

**CROSBY-LAUGHLIN®
Load-Rated!®
HOOKS
Eye • Swivel**

Unconditionally guaranteed against breakage! Drop forged in three metals for greater capacity and job range: High grade carbon steel, chrome-moly alloy steel and non-sparking bronze. Steel eye hooks, $\frac{1}{4}$ to 40 ton capacity—steel swivel hooks, 1 to 60 ton capacities—bronze eye hooks up to 8 tons capacity. Hooks permanently identified by capacity. Integral cam for adding safety latch.

**CROSBY-LAUGHLIN®
GRAB
HOOKS
Eye • Clevis**

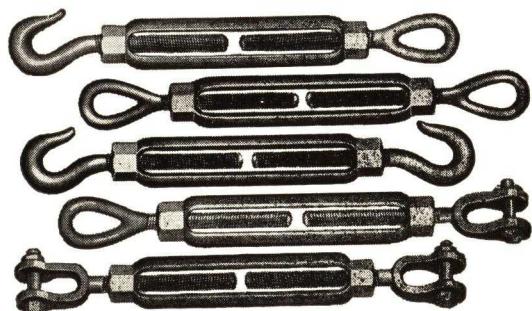

Flat grab hooks reduce kinking . . . restrict side movement and let hook hang straight. Three strengths for use with BBB, high test and alloy chain. Eye hook in all sizes, $\frac{1}{4}$ to 1 inch—clevis hook for quick replacement, all sizes from $\frac{1}{4}$ inch to $\frac{3}{4}$ inch.

CROSBY-LAUGHLIN® SWIVELS

Keep kinks out—straight line pull—increase rope and chain life with Regular, Jaw End or Chain Swivels. Extra large bail for hooks, rings, etc. All drop forged steel. A and B in $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch sizes, C in $\frac{1}{4}$ to 1 inch sizes!

**CROSBY-LAUGHLIN®
Load-Rated!®
TURNBUCKLES**

Body resists twisting and pulling strains . . . large hex ends for easy take-up . . . elongated eyes and hooks, all drop forged. Combinations of hook, eye and jaw ends, shank diameters from $\frac{1}{4}$ inch to 2 $\frac{1}{4}$ inch. Take-up ranges from 4 inch in smallest to 36 inch in largest size.

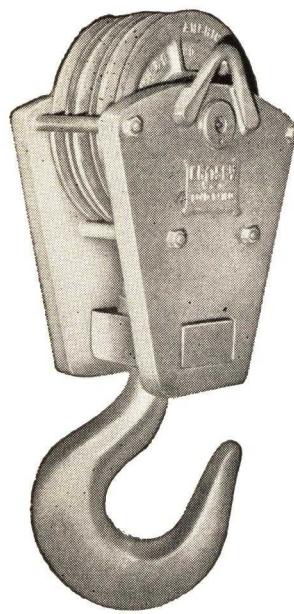

**LEBUS®
Load-Rated!®
LOAD
BINDERS**

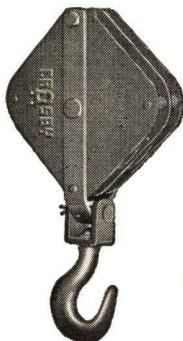

Strength to break high test chain! Drop forged, heat-treated steel—heavy flange at leverage point prevents spreading—ball and socket swivels on hook assemblies permit a straight line pull. Four sizes with grab hooks, clevis grab hooks, or links only. Fully guaranteed. Ratchet type also available.

NOTE: Complete CATALOG from your dealer . . . contains specifications on CROSBY-LAUGHLIN fittings — more than 2000 items.
